Rationality, creativity, and attention to detail are part of my fundamental values.
As a creative developer, I am particularly interested in beauty both inside and outside of code, that is to say, in data and user interfaces. Always striving to improve, I do not shy away from difficulties and challenges, but rather prefer to confront them.

In a beautiful love-hate relationship (but mostly love) with the web and immersive experiences, generative and creative code, I am looking for a position as a Full Stack Creative Web Developer.

work experiences.

09/2018 - Present : AKQA.

Junior Web Developer

Apprenticeship contract in Bachelor's and Master's degree programs at Gobelins, followed by a fixed-term contract within the tech team of AKQA agency, located at 75006 Paris. As a junior web developer, I participated in the development of mobile applications using React Native, followed by websites using React/Vue in the front-end and Headless CMS in the back-end.-

- . **Project management:** Agile.
- . **Environment & Working method:** NodeJS / Git + Git flow / Terminal + CLI.
- . **Back-end:** Headless CMS JavaScript (Contentful, Prismic) / GraphQL.
- . **Front-end:** React Native / React + Next + Gatsby / Vue + Nuxt / Storybook.
- . **Creative coding:** ThreeJS / Canvas.

04/2018 - 09/2018 : VisiAutrices.

Full Stack Web Developer - GraphiC/UX Designer.

Internship within a research project supported by CNRS & RnMSH, at the Gaspard-Monge Computer Science Laboratory, 77420 Champs-sur-Marne.

- . **Back-end:** Design of a Database / Development of a Back-office platform (PHP / MySQL / Laravel / jQuery).
- . **Front-end:** Development of interactive platforms / Data visualization / Manipulation & Animation of SVG (JavaScript ES6+ OOP / ReactJS / SVG / D3.js / Leaflet).
